# Soil Testing for Lead

Website: <http://usual.usu.edu/home-soil/index>

## Fill Out the Attached Form

The test you want to choose that will include lead is:

S19: Total Element Composition EPA 3050 Digestion + ICP analysis

Price: \$33 for test + \$4 of Sample Preparation/Drying and Grinding (required for most samples) = **\$37 Total**

Sample Size: 4g

## Get the Sample

For standard topsoil, dig 6 to 12 inches deep. For turf samples, dig 6 inches deep. Samples need to be taken in several places.

## Mix It

Mix soil samples in a clean bucket or container. If chunks remain in your sample, don't hesitate to break them apart.

## Keep Two Cups

Place two cups of soil into a quart-sized, heavy-duty resealable plastic bag (sandwich bag with Ziploc) in a small USPS mailing box. Include a completed order form. For credit card payment, include card info on the form, or include a check for your chosen test(s).

## Payment

Be sure to include a completed form and payment with the delivery

USUAL accepts checks, money orders, VISA, MASTERCARD, and DISCOVER. We will accept PO#'s from some businesses and government institutions. Payment is expected at sample submission. Failure to provide payment at sample submission will result in delay in sample processing.
